The contents are based on the author's personal experience and research. Your results may vary, and will be based on your individual situation and motivation. There are no guarantees concerning the level of success you may experience. Each individual's success depends on his or her background, dedication, desire and motivation.

NOTE: Some of the recommendations in this report might contain affiliate links. If you click on the link(s) and purchase such a product based on my review and/or recommendation, I will receive a referral commission. Whether I receive a commission or not will not have any effect on the purchase price of the product. Additionally I am sometimes offered a complimentary product to review. My decision to promote these products is based on my own satisfaction with the products. I do not recommend crap, and any review I make will be based on my own experiences, which are not typical. You could do better, you could do worse, you could do nothing at all, and that is totally out of my control.

We make every effort to ensure that we accurately represent our products and services. There is no guarantee that your results will match examples published in this report.

Some links may change or even not work for many reasons beyond the control of the author and distributors. They cannot guarantee or otherwise be responsible for what you might find when you click through to sites not under the control of the publisher of this report.

About Us:

Dennis Becker began his Internet marketing career in 1998 by selling on eBay while still running a full time retail business. Beginning in 2002, he became interested in Internet marketing, and spent 3 years trying virtually everything with dismal results.

One day, frustrated and beat, but unwilling to quit, he devised a new strategy to simplify the entire process, starting with a mindset makeover. That strategy changed his life, and he wrote about it in the classic "5 Bucks a Day" book, available at Amazon, or through a link in the resources section.

He also opened an "Insiders Club" in 2007 to help more experienced Internet marketers achieve their first \$1000/day of profits by following proven, sometimes little-appreciated, business models to receive amazing results.

Rachel Rofo has been a full time Internet Marketer since June 2006, and has been on the Internet for over a decade.

Although she's dabbled in many fields, she's mostly known as a membership site expert, copywriter to the "Internet Stars", and offline business expert.

She dedicates her time to learning as much as possible, both in Internet Marketing and in life. She joined the staff of Earn1KaDay in 2010.

You can read more about her on her blog at <http://www.RachelRofo.com>.

Introduction

Blog envy strikes every level of blogger at some point in his career. How do you stand out amongst a crowd of nearly 200 million existing blogs? Concoct an irresistible blog following with these Top 10 WordPress Plugins created specifically to boost your SEO (search engine optimization).

Sure, you have great content (your mom told you so, right?). However, offering something fresh from the oven every single day doesn't necessarily build your readership. You want Internet browsers and blog-enthusiasts alike to sniff out your delicious content. So, when I reveal to you these top 10 WP plugins, you will have a following rival to that of the famed Magnolia Bakery begging to eat out of your hands.

Lucky for you, the ever-expanding WordPress community deeply values quality SEO and has developed plenty of amazing plugins to help you along with your endeavor. So, here is a little taste of what WP cooked up to help you choose the best tags for your content, guide search engine robots, optimize your titles, and more...

All in One SEO Pack

Talk about a WordPress rock star! All in One SEO Pack is by far one of the most popular plugins ever developed for WP, and for a good reason. Ever dream about a personal assistant who also cooks, cleans, and washes your laundry? Well, that is what this plugin does for your SEO.

Offering a little bit of everything off the SEO plate, this plugin was specifically designed to give you the best options in one tiny little package. This WordPress plugin addresses some of the most important on-page ranking factors including title, descriptions, keywords, duplicate content, and per post/page editing.

Google XML Sitemaps Generator

In its basic form, a sitemap is an XML file that lists a site's URLs in addition

Top 10 WordPress SEO

to other metadata about each given URL so that search engines are able to more intelligently crawl the site. That is why Google XML Sitemaps is such an essential component to your WordPress blog. Though its name only mentions Google, this plugin creates a diverse XML map that is readable in Yahoo!, Bing.com (formerly known as MSN Search), and Ask.com.

Google XML Sitemaps Generator has some outstanding features including automatic generation of a sitemap for all types of WordPress pages, and notification to Yahoo!, Ask.com, Google, and Bing about any changes you make via ping. It also includes WP filter for other plugins, and requires no PHP skills or file changes.

Platinum SEO Plugin

Platinum SEO Plugin is like a supersized version of “All in One SEO”. It offers such features as auto-generation of META tags, post slug optimization, automatic 301 redirects for permalink change, and even helps to avoid duplicate content.

SEO Blogroll

Do you ever toss and turn at night, worried that your blogroll is consuming your pagerank? You can rest well after installing this plugin. SEO Blogroll allows you to make separate sections for various link groupings, and all of them will receive that ever-important rel=“nofollow” attribute (if you so choose).

Once installed, you are able to create as many link boxes as your heart desires, each with its own title and as many links as you deem fit. Then you can decide for each individual link it should have a “nofollow” attribute.

SEO Friendly Images

Great images drive traffic to your blog. When people search for images of various subjects, wouldn't you love for your blog to come up? This plugin

Top 10 WordPress SEO

helps you apply all of the correct "alt" tags and "title" tags on all of your images so search engines properly index them.

SEO Tag Cloud Widget

Regardless whether you have a love affair with them or loathe their existence, many bloggers use tag clouds. However, tag clouds have been virtually unreadable by search engines since their inception. This plugin will convert your tag cloud to SEO-friendly HTML markup, allowing searching engines to index them.

Automatic SEO Links

Automatic SEO Links allows you to select a word or phrase for automatic linking, both internal and external, to set anchor text, and even choose whether or not it will have a "nofollow" attribute. What is so fantastic about this plugin is that you only have to set it for the first occurrence of the word in your post. So, fear not the spamming of your post with numerous links to the same thing!

HeadSpace 2

With HeadSpace 2, you can tag your posts, create custom titles, customize your descriptions, change your theme, run disabled plugins on selected pages, and much more. This powerful all-in-one plugin handles a wide range of SEO tasks, allowing shortcuts to the headachy and tiresome process of configuring meta-data without requiring conflicting plugins.

Permalink Finder

The dreaded 404 error creeps up when a page cannot be found. This occurs when you link to a post that has either been deleted or the permalink has been altered. This plugin helps to avoid sending your readers into the great 404 abyss by first searching through your database for a post with similar words. It takes the best match and sends back a redirect to the best page. It's a win-win because users will see the redirect page and search engine

Top 10 WordPress SEO

spiders will see the 301 redirect, allow them to update their databases so that new searchers will be linked to the correct page.

WP Backlinks

Sometimes the arduous task of link exchange is very taxing on the soul. This plugin makes link exchange so simple that you feel like you are cheating. Upon installing, you will find a small form on your blog's sidebar that allows webmasters and other blog-enthusiasts to effortlessly submit a link for link exchange. The plugin will then spider the Webmaster or blogger's site for a reciprocal link, and VOILA! - you've successfully exchanged links.

Conclusion

Regardless if you write content fit to feed a king, no one will find it without using proper SEO tactics for your WordPress blog. You're interesting, relevant, and witty. So, don't discredit yourself by ignoring all of these fantastically functional WordPress plugins designed specifically to boost your SEO results.
